

**The 2015 Annual Conference, *Trends and Techniques in  
Technology for Construction. October 21, Everett, WA***

**Luke Abaffy, *Engineering News Record, “From Dream to Reality: Emerging Technologies  
Now and When?”***

**Sean Gay and Bart Reed, *Stoel Rives, “Integrated  
Project Delivery– Key Considerations and Possible  
Pitfalls”***

**Dr. William O’Brien, *University of Texas– Austin,  
“Effective Project Alignment for Construction Success”***

***Washington Department of Transportation and Pavia Systems, “The Headlight  
Project Integration System: Lessons Learned in a Pilot Project”***

**Distinguished Project Awards Luncheon**

**Keynote Presentation: Terry Hershey, “It’s in Your Dirt”**

**Distinguished Project Awards Deep  
Dive Presentations**

**Rob Edgers and Anthony Parchment, *Eagle  
View Technologies, “Capabilities of Drones and  
Regulatory Considerations”***

**Shannon Ramey and Mark Liebman, *CASE  
Forensics, “Myth Busters Meets CSI– Why You  
Might Benefit From Learning About Forensic  
Engineering”***

**Dr. Giovanni Migliacchio, *University of Washington,  
Understanding Processes Affecting Construction Work-  
ers’ Performance through Use of Bio and Environmen-  
tal Sensing”***

**Matt Senechal, *Tempered Networks, “Is Your Company  
Prepared to Survive a Cyber Attack?”***
